

Call for applications for membership of the ANZMUSC Clinical Trials Network Scientific Advisory Committee

The Australia and New Zealand Musculoskeletal (ANZMUSC) Clinical Trials Network seeks to optimise musculoskeletal health through high quality, collaborative clinical research.

The Scientific Advisory Committee (SAC) provides scientific and methodological advice/review on proposals that have been submitted for ANZMUSC funding, awards or endorsement, or for presentation at an ANZMUSC Scientific Meeting. The SAC can also be called on to provide advice on relevant policies and procedures.

The SAC meets 3-4 times a year (face to face at the annual scientific meeting, then via zoom).

SAC members are appointed initially for two years, with the option of re-appointment for two further terms of two years each (maximum six years). Applicants will need to be a full member of ANZMUSC to be eligible. Members will need to declare all conflicts of interest.

We are seeking 2 new members to join the SAC. To apply, please submit a cover letter and a brief CV (2 pages) that address the following:

- ☐ Your discipline and qualifications
- ☐ Your experience in the design and conduct of musculoskeletal trials
- ☐ Your success in attracting competitive national peer-reviewed funding for musculoskeletal research
- ☐ Your experience as an external reviewer for national peer-reviewed funding schemes
- ☐ How you will contribute to the multidisciplinary nature and diversity of ANZMUSC
- ☐ Your declaration of ANZMUSC membership status
- ☐ Any potential conflicts of interest
- ☐ Career interruption(s) over the last 5 years and/or any relative to opportunity considerations, if applicable

Applicants will be assessed according to the criteria listed above, with attention to diversity, equity and inclusion considerations.

Applications close 31st May 2024 and should be submitted via the ANZMUSC website.
